Education

B.M.S. College of Engineering Bachelor of Engineering (B.E.) • CGPA 8.8/10.0
Electronics and Communication Engineering Bengaluru, Karnataka, India • 2023 – 2027 (Expected Aug 2027)

- Senioir Coordinator (Info Dev), PhaseShift — BMSCE national tech symposium; Junior Coordinator, Utsav 2025; Campus Ambassador

Little Kingdom School High School Diploma • 80%
Senior Secondary Jabalpur, Madhya Pradesh, India

Experience

Dell Technologies Bengaluru, India
Software Intern Jun 26 - Aug 26

- Contributed to enterprise software infrastructure, focusing on low-level performance analysis, system integrations, and software reliability
- Assisted in streamlining core tooling and infrastructure workflows, working directly with software infrastructure stacks

Freelance (Fiverr & Remote, Self-Employed) Remote
Full-Stack & Systems Engineer

- Earned Level 1, 5-star rated freelancer status by building and deploying 50+ full-stack web applications for international clients
- Designed end-to-end architectures using Next.js, React, Node.js, Express, Python, and SQL databases
- Containerized client applications with Docker and configured Nginx reverse proxies for deployment, caching, and traffic handling

Projects

ProctoAI — AI-Powered Proctoring & Exam Integrity Platform

- Next.js, Python, OpenCV/AI Vision Models, Node.js
- Automated online examination proctoring monitoring candidate video feeds to detect unauthorized behavior
- Real-time anomaly detection pipelines with low latency and automated incident reporting

C-Powered Proxy Web Server — Proxy & Traffic Management

- C, POSIX Sockets, HTTP, Cache Architecture
- Lightweight concurrent reverse proxy with dynamic request routing, in-memory caching, and load balancing
- Native socket programming and POSIX threads minimize overhead and maximize throughput

VibeLink — Real-Time Chat Platform

- React, Next.js, Node.js, WebSockets, SQL

- Real-time messaging with instant bidirectional communication, public channels, and private rooms
- Persistent message stores and WebSocket state management for synchronized statuses and low-latency delivery

Anonymus — Secure Anonymous Messaging Platform

- Next.js, Node.js, SQL, Cryptographic Hashing
- Anonymous communication stripping metadata and identifiers to preserve privacy
- Rate-limiting, secure query validation, and input sanitization against malicious traffic and spoofing

Skills

Programming Languages

C, C++, TypeScript, JavaScript, Python, SQL, Assembly

Web & Frameworks

Next.js, React.js, Node.js, Express.js, WebSockets, Tailwind CSS

Systems & DevOps

Docker, Kubernetes, Nginx, Arch Linux, Linux Kernel Tools, Neovim, Git

Hardware & Protocols

IoT Telemetry, Serial Communication, Networking Protocols, Sockets

Awards

1st Place Winner — AI VERSE 2.0 Hackathon

Team Terminal Titans

- Led team Terminal Titans to first place and the top cash prize for architecting an end-to-end AI application under competitive time constraints

Publications

Multi-Hazard Detection and Alert System and Method Thereof

Patent No. 202441083752

- End-to-end multi-hazard telemetry pipeline with wireless and serial transmission for fault-tolerant sensor streams to a central gateway
- Full-stack React + Node.js dashboard ingesting real-time environmental telemetry with threat thresholds and instant warning triggers
